

On This Side Of The Sun

By Phat

WHO? ME!—A week ago several of the citizenry, including the Chamber of Commerce, asked me: "Why don't you write something about the fine summer weather we are having?" ... I did ... Two days later, things popped. The high mark of last year—119—was reached Sunday. To further slap us down for bragging about cool nights, the minimum didn't get below 80 the next night ... All of which further goes to prove that pride goeth before a stubbed toe. ... That isn't all, however. The good citizenry, including the Chamber of Commerce, blame me. "Don't ever brag about our weather again," they warn.

AROUND TOWN—Bert Misner who took a watch at the local ground observation post one Thursday night a year ago last February and who hasn't missed a watch there once each week since, was on the job last Thursday night. He won't be next Thursday. He's going to take a brief rest this summer and thus will end the longest record of steadfast service at the local post. He hasn't the most hours, he said, because some have taken longer watches in interrupted sequence—but his is the longest record of reliability ... Which reminds us, that Misner was nominated for the most valuable citizen by a woman who wrote: "If more would display the patriotic spirit that Bert Misner has, there'd be no trouble getting aircraft watch volunteers."

THE DOMESTIC FRONT—Marriage licenses are still in great demand at the county court house although the rush has fallen off slightly since June. But divorces continue their upswing. For every three couples getting married, one couple is splitting up. Maybe it's the heat ... Frank Partridge, snapper of pictures, says the letter "r" is a jinx. He says the Desert Sun is always spelling his name "Partridge" and that a girl he engaged to paint a sign for him at his Big Bear studio, forgot that letter and practically made him a "photographer" ... Partridge, incidentally, startled everyone at Pat Patterson's drug store Monday when, with the mercury hitting 115, he solemnly stated that he thought it was about time to change from his winter woolens.

IT HAPPENED—Business men and others, beset by countless government forms and questionnaires, will sympathize with that Pasadena woman, who after filling out government forms all day, slashed her wrists. She'll recover ... The chairman of our committee for the relief of market patrons, bobs up with this suggestion: "Why don't the markets have small refrigerators at the checking stands? With the long lines which now prevail at all checking stands and the delays incidental to getting out the proper number and color of points, the butter you get at the big refrigerator at the back of the market is

(Continued on Page Eight)

Tries New System To Beat the Heat But It Costs \$50

Whit F. Denham, of Denham's Automotive service, 348-354 North Palm Canyon drive, is contemplating thing in general and hours of labor in particular this week as he ruefully surveys a \$50 cavity in his bankroll.

Denham thought he had solved the summer problem, with so many army officers and men now here and so many of them "just having to have that necessary work done on the car done by tonight because I'm leaving tomorrow," business followed the mercury in the thermometer in its upward move.

He welcomed the rise in business and thought he could do something about the rise in the temperature. So he decided to work in the cool of the morning and the cool of the evening, leaving the midday to the sun.

But it didn't work out that way. Denham was charged with maintaining a nuisance because the sound of his work at night was telegraphed along joists and foundations to an adjoining building occupied by James Clark.

Clark swore to the complaint, charging the noise disturbed him and before Judge Guy Pinney last Friday, Denham was fined \$50 because he wanted to beat the sun and work at night.

Palm Springs Now Station On Air Line

American Airlines Authorized By CAB To Serve Village

The Civil Aeronautics board this week granted permission to the American Airlines to make Palm Springs an extra intermediate stop on their route No. 4, between Fort Worth-Dallas and Los Angeles.

Action followed presentation of statistics to the CAB by the Air Transport Command, Army Air Forces, of Palm Springs—the 21st Ferrying Group—that such service was needed and essential in the war effort and in the interest of national defense.

The CAB regulations provided intermediate stops for the airline between the Texas cities and Los Angeles at Phoenix and Long Beach. The Palm Springs stop now has been added to the list.

The permit contains certain restrictions. Planes serving San Diego and Long Beach will not serve Palm Springs and priority and non-priority passengers coming from the east to Palm Springs or going to the east from the Village must come from Fort Worth and Dallas or east thereof or must have their destination in those Texas cities or east of them.

The order, a copy of which was received at the city hall this week by City Manager Louise McCann, was signed by Fred A. Toombs, CAB secretary.

Summer Quits Its Fiddling Around And Gets to Work

Summer, after fiddling around and dithering on the way, finally hit Southern California the first of the week. High temperatures, the hottest of the summer, were reported from many points.

Los Angeles admitted 98 degrees and in Riverside the mercury went to 110. San Bernardino experienced 114.

HITS 119 HERE

In Palm Springs, the mercury hit 119 on Sunday while on Monday the high was 116. Cloudy conditions held the temperature down Tuesday from previous highs but also kept it from falling at night with the result that the minimum of 80 was the highest for the year up to date.

Palm Springs was visited by rain Tuesday, a sprinkle at the north end of the Village, a ten-minute downpour at the southern end.

On Wednesday a brisk rain swept Palm Canyon but none fell in the Village despite black clouds which blew in from the south.

The dead are Pvt. Charles Nash, Atlanta, Ga., Sgt. Robert J. Powers, Trenton, N. J., Cpl. Julius Ortega, New York.

THREE SOLDIERS DIE

The three soldiers were from a company of 39 under the command of a first lieutenant on a six day endurance test. They ran out of water in the waterless mountains and the officer left to obtain a fresh supply. When he returned, the four men were gone. No hope is held for finding the man unaccounted for, alive. When the 39 men were reported missing, the Army sent out searching parties who found the 35 remaining men. All were suffering from lack of water and the intense heat.

At El Centro in Imperial county, 30 miles west of the Chocolate mountains, the maximum temperature was 124 degrees. It was estimated midday temperatures in the desert areas were from 10 to 15 degrees higher.

Miss Mary Lou Kingsbury of the city hall staff, and Miss Ann Curry, secretary in City Attorney Roy W. Colegate's office, have returned from two enjoyable weeks spent in Yosemite national park.

Have Another Cup Of Coffee! Uncle Sam Removes Lid

"How about a second cup of coffee, sister, and don't give me any of that 'Don't you know there's a war on' stuff."

You can say that to the waitress at your favorite eatery now. Coffee rationing in the United States dropped out of the picture as of this morning. If you've spent stamp No. 22 in War Book No. 1, it's too bad. It was good until August 11 but you won't need it now.

Steady successes in the campaign against Nazi U-boats and the vast increase in U. S. shipping, enabled the government to lift coffee rationing.

Dugout's New Snack Bar Is Popular Spot

Business is booming at the new Juice and Snack bar at the Dugout, in The Plaza, sponsored by the Palm Springs American Legion post.

The spot is becoming more popular each day.

Last week-end 50 gallons of fruit juice were served thirsty service men, from local posts and in from the desert. For the month of July, up to Tuesday, 400 gallons had been served.

Along with the oceans of fruit juice, 1500 sandwiches, innumerable cookies and cakes and great quantities of coffee went into the classification of "we're in the army, now" so far this month.

Approximately 10,000 service men partook of the Dugout's hospitality during the month, either at the juice and snack bar, writing letters or reading.

Mrs. Paul Shuttlesworth, as hostess, has been doing a grand job at the Dugout and has been assisted by the following junior hostesses:

Alyce Gehrling, Virginia Brown, Elizabeth Collins, Lucile Rutledge, Ellen Biavaschi, Carolyn Robinson, Marie Skoog, Doris Jacobs, Wanda Shepard, Dorothy Smith, Jane Davies, Clara Veith, Bobbie Martinez, Anne Pierce, Wanda Hoff, Marian Ireland, Marie Holland, Hazel Jones, Martha Phillips, Barbara Perkins, E. Cary Boles, Rose Gautiello, Mabel Swart, Ruby Hoppe, Muriel Neil, Edith Edson, Pat Holderman, Anita Lee, Kathryn Croft, Sally Phillips, Ruth Scott, Marie Cowley, Mary Roberts, Jewell Hambleton, Jessie Bird.

The Dugout is in need of more volunteers to assist as junior hostesses as many of the young people who have been helping are leaving for the summer. Volunteers are always welcome.

Local Army Officer Plane Crash Victim

Warrant Officer (j. g.) Leland J. Hall, aged 28, attached to the 21st Ferrying Group headquarters here, was one of 20 persons killed in an American Airlines plane crash near Bowling Green, Ky., early yesterday. There were 22 aboard the plane which made a forced landing with the landing gear up and skidded for a quarter of a mile. Only two escaped.

The high loss of life resulted from an odd occurrence. A passenger fell and blocked the door of the plane as it crashed, trapping the others inside. Two crew members escaped by a window and sought to get the door open but before they could, the plane exploded.

Warrant Officers Hall had gone east on official business and was on his way back to Palm Springs when the crash occurred.

He had been at the local air base since January 16 when he arrived as a sergeant. On June 25 he was promoted to warrant officer, (j. g.)

He is married and made his home here at 516 Calle Santa Rosa. Mrs. Hall was the former Mabel Clark of Alhambra, Calif.

Hall was the son of Mr. and Mrs. Burr J. Hall of Plymouth, Wis. He entered the army on September 23, 1941, shortly before the United States entered the world war.

In civilian life he had been an accountant.

Mr. Hall was well known in Palm Springs and had made many friends in the six months he was here.

Honors For Sky Gazers Next Week

Governor Sets Aside Period for Aircraft Watchers

Governor Earl Warren has proclaimed the week of August 1 through August 7 as Aircraft Warning Service week and in Palm Springs, Culver Nichols, area supervisor, and Mrs. Dolly Evitts, chief observer for the local post, called attention of Villagers to the importance of the ground observation work.

The Palm Springs post of the aircraft warning service has a proud record. It was organized weeks before the war broke, in August, 1941.

PLAN FOR ACTION

Organization plans under Fire Chief Bill Leonosio, first chief observer, were so well perfected that when the Japanese struck at Pearl Harbor on December 7, 1941, the post was fully manned a few minutes after word was received here.

Since that day there have been two watchers on duty at the post day and night and every hour of the 24 each day.

When the combined duties of chief observer and fire chief and civil defense activities became too great for Chief Leonosio, Maurice Libott was made chief observer.

NICHOLS TAKES OVER

He was succeeded by Culver Nichols who took active charge of the post last year. Under Mr. Nichols direction efficiency of the post, already high, was further increased and it fast gained a reputation as one of the county's best.

Mr. Nichols was raised to area supervisor last fall and Mrs. Virginia Farrell succeeded him. She kept the post humming, fully organized and manned until she went east to be near her husband, Charles Farrell of the Racquet club, who is now in the U. S. Navy.

MRS. EVITTS IN CHARGE

Mrs. Dolly Evitts, who was Mrs. Farrell's chief aide both at the Racquet Club and on the observation post, took over from there and is now efficiently conducting the affairs of the post.

Although every watch is fully manned, Mrs. Evitts could still use volunteers and requests any who wish to assist in this important work, contact her. Many of the regulars are leaving on vacation.

(Continued on Page Five)

IN HAND—The Wacs, who moved in last week, have the situation well in hand at the 21st Ferrying group headquarters here. Officers of the contingent here are, left to right, First Lieut. Theodora Smith, in command, and Second Lieuts. Joyce Went and Helen Juckett.

More Wacs to Arrive Soon at Air Base Here

More soldiers of the Women's Army Corps are coming to Palm Springs soon to reinforce the nucleus which arrived here last week. Three officers accompanied the group here and ten times the present number of Wacs are expected soon. Capt. Geraldine F. May, Wac staff director for the Air Transport Command, supervised the installation of the cadre and in command of the first group is First Lieut. Theodora Smith.

Capt. May emphasized that the job of the Wacs is to relieve men for other duties at military posts and that has been the basis of their training since they first volunteered and were sent to Fort Des Moines and later to Dayton and Oglethorpe.

The first contingent of Wacs here likes Palm Springs. As one of them put it: "Definitely and emphatically, we like Palm Springs. The weather's fine, the chow is super and the fellows—oh Boy!"

The Wacs wear 'dog-tags' just as the men do, get the same pay, but instead of addressing their officers as 'Sir,' they say 'ma'am.' They do not carry guns and the brown bags slung over their shoulders carry the little articles that civilian women carry in their bags. The Wacs are in the army—but they're also women.

Add 3 Hours To Schedule at Swimming Pool

Because so many civilian workers at Torney General hospital and at the Air Base declared they would like a swim after they got through work and before dinner time, the municipal plunge at the Frank W. Cutler place, 348 Merito place, will remain open from 1 p. m. to 10 p. m., without a break, starting next Sunday, August 1.

Heretofore, the hours have been 1 to 5 p. m. and 7 to 10 p. m. The new schedule adds three hours but, most important according to R. H. Bennett, in charge, it will open the plunge between 5 and 7 p. m., the time when the workers want to use it.

With the arrival of warmer evenings, the pool is becoming increasingly popular at night and the hours were lengthened to 10 p. m. The new schedule, effective Sunday, applies to every day except Monday when the plunge is closed.

Bennett also announced the employment of Peggy Green, an experienced swimmer, as life guard and instructor. Miss Green is a graduate of Michigan State college, majoring in physical education for which she has a teacher's certificate. She has completed the senior Red Cross life saving course and the Red Cross First Aid course and was swimming instructor in Lansing and at Hilltop camp, Michigan. She also was individual swimming instructor at the state college. A nominal fee will be charged for instructions here.

Six Projects Fill Housing Quota Here

Only Essential Civilian War Workers Eligible

With three hotels and apartment-houses already under lease to the government and three other buildings to be converted into dwelling units, quota of housing units for essential war workers has been completed or contracted for, Culver Nichols, representative of the War Housing Agency said yesterday.

When all units are completed and occupied, dwelling space will have been found for 150 to 160 civilian workers at the local army posts.

TIGHT RESTRICTIONS

Mr. Nichols explained that under the WHA regulations, only those engaged in essential war work are eligible for rentals.

The units are not available for military personnel or for other housing purposes.

"The regulations state that 'only essential in migrant civilian war workers' may rent these units. That leaves little to the imagination. They must be essential, must be here for war work, must be civilians and must have war work positions," said Mr. Nichols.

THREE IN OPERATION

The three places under lease to the government and occupied by civilian war workers already, are the Cahuilla hotel, the Desert Retreat and the Vista del Chino.

The three buildings to be converted into dwelling units and which will be ready for occupation soon are the Swedish Inn near the hospital, and buildings owned by Albert Cole on North Palm Canyon drive and Mrs. Gordon M. Clark on South Indian avenue, south of Ramon road.

FOR WAR WORKERS

These six projects will provide dwelling units for from 150 to 160 workers and are distinct projects from the buildings recently erected on Paseo El Mirador by the government and are now occupied by 150 women war workers at the local military posts.

Albert Frey, local architect, is working on the conversion plans.

The buildings now in use and those being remodelled are leased to the government "for the duration" and Mr. Nichols is in charge of rentals and other details.

Change in Hours at Sun Office Announced

In effect August 1, the office of the Desert Sun will observe the following hours:

Mondays: 10 a. m. to 5 p. m.
Tuesdays, Wednesdays, Thursdays and Fridays: 8:30 a. m. to 5:30 p. m.
Saturdays: 8:30 a. m. to noon.

Sgt. Ray Wilson of the Palm Springs police force was in Riverside yesterday on official business.

Desert Heat Fatal To Soldier's Wife

Mrs. Mae Roberts, 42, wife of Sgt. Ira Roberts, died as the result of heat prostration yesterday as she was being rushed to the hospital following her collapse at her home at Indian Wells, between Palm Springs and Indio. She succumbed just as she was being taken into Torney General Hospital here.

Mrs. Roberts had arrived on the desert just five days ago. Yesterday she was stricken by intense heat in the desert area 20 miles east of Palm Springs. Her husband, attached to one of the desert posts, placed her in his automobile and started for Cathedral City hoping to find an air-cooled place where she could rest comfortably.

Mrs. Roberts was nearing a collapse when they left their cottage at Indian Wells and had passed into a comatose state when they reached Cathedral City where Sgt. Roberts sought help. She was given first aid by Dr. H. E. Brandt there.

W. R. Hillery of that community, took over the wheel of Roberts' auto and rushed the woman on to Torney Hospital here.

Just as she was being taken into the hospital, she died. Sgt. Roberts had been stationed at Vancouver Barracks for 17 years prior to being moved to the desert. He had acquired a ranch in Washington and was preparing to retire from the army when the present war broke out.

The Roberts were married in 1926.

The body was removed to a Riverside mortuary and will be shipped to Vancouver for services and burial.

An Open Letter to USO Volunteers

We are sending you an open letter asking for your assistance. We would have preferred sending individual letters, but we have no way of knowing the names of those who gave so unstintingly of their time during the long, hot summer months of last year and the cooler, but still arduous, months of winter.

We are writing you mainly to clear up any misunderstanding that may have arisen concerning the need of volunteer workers in a USO Club operated by professional workers. We most assuredly do need all the volunteer help we can get. We ask it of you because we know of the splendid work you have contributed in the past and because we are anxious to make the Palm Springs USO Club one of the best in the future.

We are sorry if you have received the impression that your services are no longer required. We need not only your services but your suggestions as well. We feel that with your cooperation and the advantage you have, through past experience, of knowing what the boys want, we will be able to make the local USO a success.

We are all working toward the same objective—the basic theme motivating the National USO—Service for Enlisted Men—"Their Home Away From Home." Every hour you give means that much more we can do for the soldiers. We need you. We want you. We hope you will help us out.

Thank you,

ELIZABETH CAULKINS, Acting Director
GAIL SOLLENDER, Assistant Director

Decision in William Keys Case Postponed Until August 3 as New Trial Plea Filed

The time for pronouncing judgment on William Keys, convicted of manslaughter in connection with the shooting of his neighbor, Worth Bagley, in the Joshua Tree National Monument, was continued to Tuesday, August 3, Tuesday by Superior Judge George R. Freeman at the request of District Attorney John Neblett and Attorneys Paul Barksdale d'Orri and Thomas A. Reynolds, attorneys for the defense.

At the time the jury's verdict was read, d'Orri filed an oral motion for a new trial. Tuesday he filed a written motion on the following grounds:

First—That the court erred upon decisions of law arising during the course of the trial.

CHARGES ERRORS

Second—That the court misdirected the jury in matters of law.

Third—That the verdict is contrary to law.

Fourth—That the verdict is contrary to the evidence.

Fifth—That the district attorney was guilty of prejudicial misconduct during the course of the trial, in the presence of the jury.

Should Judge Freeman grant Keys a new trial, he will be tried for manslaughter as the verdict of the jury acquitted him of the higher degree of homicide. Manslaughter is punishable by imprisonment of from one to ten years.

MISSIONARY ON STAND

Among the witnesses for Keys was Mrs. W. A. Dudley, former missionary who taught in the Cabazon school last year. She had previously taught in the Desert Queen school near the homes of Keys and Bagley. She said in the six years she was in the school she had never heard Keys threaten Bagley but that she considered the latter mentally unbalanced. She further testified that she knew he was going to kill Keys if he had the opportunity.

Because Nazi authorities in Holland are stripping the country of sugar to supply their troops on the Russian front, Hollanders will be without sugar for one month this fall.

YOU'RE IN THE ARMY NOW

By Capt. Herc Ficklen

"Homesick again? Shame on ya—Ain't I been treatin' ya just like a mother?"

Cathedral City

W. R. HILLERY

Well, the wise guys in and out of the army have announced the immediate abandonment of the Desert Training Center. It is too bad we can't register these bulletins and hand them back to the bulletiners at a much later time than the limits set by them for the action and ask them to check on their tongue. It is a certainty I have no information except that article in "Time" which is not of local origin and I have much faith in the view of a major officer of many years army service who said he believed that there would always be training going on in the desert and that even after the war not less than a division would be in this area.

The training is for general toughening and does not have to be for desert combat. There is no good reason for me to put in my oar except that we have enough people up in the air about the future without having it stirred up by the guessers. The President's speech would indicate we are to go forward full force until the last dog is hung. Personally, I felt that while he was naming high ranking officers for praise he should have just put a little pat on the back of MacArthur.

Mrs. John J. Grove writes an interesting letter from Detroit and tells us some of the prices in effect there that should soothe us a bit. Watermelons there are \$2.25 each. Very small juice oranges 49c per dozen, 4 plums that weighed a pound and retailed for 35c. What we can get in season here we should preserve or eat if we can so if we have to tighten our belts this next winter as predicted, we will have something to pull in the notches on.

From the talk about food shortages this coming winter, there would seem little reason to mention our garbage situation. But unless there is a drastic change in labor and service outlook there will be no service here. Through the summer it does not seem to matter much for the hot drying weather does not leave anything for even flies to feast on from day to day but by winter time the owners will have to devise some method of disposal. Either incinerators of a fairly substantial build that have spark arrestors on them to lessen the hazard of fire or private pick up.

I do not think that forming a sanitary district or even offering double the rate of service we have paid will solve the problem for more than a month or six weeks per agreement.

Forty to sixty books a week are taken out by local patrons of our local free library. I can't help but mention it. A few books are being added by contribution right along. This past week Mr. and Mrs. H. A. Snyder, the Date Garden people, presented the library with a full set of "The Books of Knowledge." We have an incomplete set in the house and I find them a mighty fine reference set, so can recommend them.

Infant Son of Army Couple Is Summoned

Private funeral services were held Tuesday at the Olivewood cemetery, Riverside, for the infant son of Capt. and Mrs. Joseph J. McEvoy, now residing in Palm Springs.

Visitor: "And what crime has this man committed?"
Jailer: "Him? None! He just happened to be passing when Looie the Lug tried to kill a man and he's being held as a witness."
Visitor: "And where's Looie the Lug?"
Jailer: "Looie? He's out on bail!"

Night Flyers Top Army League With 4 Wins, No Losses

Teams	W.	L.	Pct.
Ferry Nite Flyers	4	0	1.000
737th Sanitary	3	0	1.000
742nd Sanitary	2	1	.667
459th Ferry Base	2	2	.500
Ferry Strafers	2	2	.500
Torney Enlist Men	2	2	.500
Torney Officers	1	2	.333
Ferrying Officers	1	3	.250
22nd Gen. Hosp.	1	3	.250
TUP Airlines	0	3	.000

Last Week's Results

22nd General Hospital 11, 459th Base 4; 742nd Sanitary 3, Ferrying Strafers 2; Ferrying Night Flyers 11, Torney Officers 2.

This Week's Schedule

Wednesday — Torney Enlisted Men vs. 742nd Sanitary; Thursday — Strafers vs. Ferrying Officers; Friday — 737th Sanitary vs. 459th Base; Monday — Ferrying Officers vs. TUP Airlines; Tuesday — 22nd General Hospital vs. Torney Officers.

All games played at Palm Springs Field club. Defeating the Torney Officers 11 to 2, the 21st Ferrying Group's Night Flyers added another victory to their belts to retain the lead in the Palm Springs Army soft-ball league. The 737th Sanitary company is trailing them closely, the Flyers boasting four wins without a defeat and the 737th having three wins without any setback.

In other games last week the 22nd General Hospital came up with a surprise nod over the Ferrying 459th Base team, winning by a 11 to 4 count.

The 742nd, third place outfit, added another victory by nosing out the Ferrying Strafers, 3 to 2. Games this week shouldn't see any changes in the league standings, although the 737th has an opportunity to draw up even with the Night Flyers.

NO DAMAGE IN FIRE

Approximately one acre was burned over in a brush fire Saturday along the side of the highway near the Palm Springs junction. Damage was light.

Enough to Go Around

Now, for the first time in years, both farmers and manufacturers can work for the biggest possible yield without thinking about the market. This year they can sell all they can produce.

As things look now, this condition is due to keep up for some time, but we can't count on its lasting forever. Certainly nobody wants a prosperity built on war! So it's high time that everybody concerned—and that is everybody—gave some thought to keeping things running after the war.

You're busy, we know. So are we. The important thing right now is seeing that there's enough of everything to go around. But we've been devoting a little attention to the problems of the future, too. We feel that the people who have the producing job to do can contribute a lot to the solution of those problems.

And we hope that you, too, busy as you are with growing more food than this country's ever produced, will be turning these problems over in your mind. For if America's farmers and manufacturers, working together, can't find a way to keep the richest country on earth producing enough for everybody, and let the producers make a living in the process—if they can't, why then, who can? Real Estate Board)**Chamberlain Home
Is Purchased By
Santa Ana Couple**

Mr. and Mrs. Emil Wagner, formerly of Santa Ana and more recently of Altadena, who have spent several seasons in Palm Springs, have purchased the beautiful home of Mr. and Mrs. Charles G. Chamberlain at 591 N. Belardo Road in the Vista Acres tract just north of the Golf Course.

After trying out climates in different parts of California, Mr. and Mrs. Wagner and their attractive daughter, Carol Ann, decided that Palm Springs was the place for their permanent home. A telephone call, a wire or two, a look-see. A home.

The sale was handled by Mrs. Katherine "Polly" Pollak, who is associated with Herbert H. Foster in the real estate business at 132 N. Palm Canyon drive.

**Two Plead Guilty
To Forgery, Await
Sentence in Court**

Carl B. Huckleberry, 22, of Palm Springs, was due to appear before Judge George Freeman in superior court at Riverside today to hear sentence pronounced on two counts of forgery. Huckleberry pleaded guilty to the charge Monday before Judge Freeman.

Clinton Hoawrd Thomas, 17, who was arrested with Huckleberry on the forgery charge by Chief of Police Lyle J. Sanard, also pleaded guilty and was certified to the juvenile court.

The two youths had been employed by Angelino Potenza, produce dealer, as truck drivers but were discharged. Shortly after their discharge, Huckleberry was apprehended and accused of forging his former employer's name to checks. He confessed and implicated Thomas, whose arrest followed.

HOME-FRONT EPISODE

"What was in that fat envelope you got from Washington this morning?" asked the wife, errand boy and proofreader of the Weekly Badge.

"Oh," sighed the editor, owner, printer, salesman and printshop foreman of the same paper, "it was another article from the Head Office telling us to avoid wasting paper."

Ocean waves do not move horizontally, they undulate. They rise and fall and get nowhere.

YOU'RE IN THE ARMY NOW

By. Capt. Herc Ficklen

"Bet if old Joe McCarthy could see this pitching he'd be sorry he sent me back to Newark for more seasoning!"

**Lake and Recreation Spot in San Jacinto
Mountains Along New Road Suggested**

The establishing of a recreational center in the San Jacinto mountains along the Banning-Idyllwild road was suggested to the county board of supervisors at their regular meeting, Monday morning by County Surveyor A. C. Fulmer.

Fulmer suggested the board give approval to damming the flow of Indian Creek with a spillway at the point, 13 miles from Idyllwild where it crosses the new highway, instead of installing a large culvert under the canyon fill to carry away the creek water. This would provide a lake a quarter of a mile in length with an average width of from 100 to 200 feet. The depth of the water at the dam site would be about 35 feet.

The elevation at this point is 5300 feet and would produce a good skating surface for winter sports fans, Fulmer told the board which took the matter under consideration.

The steam shovel is again back in operation on the new highway after a period of about 4½ months delay while waiting for parts. Only 7½ miles of the new highway is still uncompleted.

**Year of Activity
At Health Center
At No Cost to City**

Significant in the annual report of the Health Center, 299 East Amado road, is that in its first year of active operation, the center hasn't cost the tax payers of Palm Springs a penny.

Despite the great activity at the center, the numerous clinics, nursing classes, health matters, not one request has been made to the city for funds since the institution opened last September.

State and county health departments furnished the medical equipment and the county pays the salary of Mrs. Madge Holderman, public health nurse and efficient head of the center.

The Welfare association provided the furniture for the rooms and nurses' office and pays the salary of the janitor, public utilities and other incidental expenses. As a result no request has been made for tax funds in the first year of operation.

On the center board are the following members of the Welfare association: Mrs. Caroline Hicks, chairman, Mrs. Ralph Clock, Mrs. B. L. Clifton, Mrs. James B. Oliver, Mrs. Clarence Bosworth. Mrs. Holderman is a member of the board, representing Dr. Warren A. Fox, county health officer.

A single ounce of gold can be beaten into such a thin layer that it will cover 146 square feet.

Paper wrappings, substituted for lead foil in cigarettes, smoking and chewing tobacco, have saved 40 million pounds of foil.

**Chief Sanard and
Wife on Vacation
At Newport Beach**

Chief of Police Lyle J. Sanard and Mrs. Sanard are missing some choice desert weather — they're down at Newport Beach for the week, on vacation. The chief will be back Sunday.

In the meantime, up at the police station, there was much speculation on the status of the chief's eldest son, Burt Sanard, who has been in North Africa for some time with the U. S. Army.

It has been Corporal Sanard but this week a letter came through addressed to the chief with the designation Sgt. Burt Sanard in the upper left hand corner of the envelope. The letter was dutifully forwarded to Newport Beach to the Sanards.

Chief and Mrs. Sanard have another son in the service, Sidney, who is with the U. S. Marines at San Diego.

**Palm Springs Man
Is Summoned After
5-Month Sickness**

Arthur W. Gill, son of Mrs. Frona Gill of Palm Springs and himself a resident of the Village for the past six years, died Friday night at the Los Angeles general hospital after an illness of approximately five months. He was 23.

Mr. Gill was widely known here and had many friends who were saddened to hear of his death which occurred at 8:30 p. m., July 23.

He is survived by his wife, Mrs. Loveita Gill and son Tommy, aged 2, by his mother here and father in Cushing, Oklahoma, and by five sisters, Mrs. Ruby Hungerford and Mrs. Alice Gary of Los Angeles, Mrs. Katherine Felts of Oklahoma City, Okla., Mrs. Margaret Combs and Mrs. Emma Fletcher of Palm Springs.

**Levering Moores
Sell Local Home
But Will Be Back**

Mr. and Mrs. Levering Moore were in Palm Springs last week attending to the final details of the sale of their residence in Tahquitz Estates, putting items of household goods in storage and making sure of a home here this coming season.

They have rented a bungalow in The Plaza for the coming season and will be back in Palm Springs November 1.

Until then they have taken an apartment on Wilshire boulevard in Los Angeles.

"Sally's so afraid of her shadow that she visited a specialist."
"A nerve specialist?"
"No, silly, a reducing specialist."

Employer: "Anything you can do better than anyone else?"
Applicant: "Yes. I can read my handwriting."

**All Bus Schedules
Changed; Leave
For L. A. Earlier**

Going to ride the Greyhound to Los Angeles?

Or planning to come out from town?

If so, start a little earlier here, a little later there.

Greyhound bus schedules changed Wednesday of this week, leaving Palm Springs for Los Angeles from 27 to 51 minutes earlier. For the Village from Los Angeles, stages now leave from a half hour to an hour and a half later.

TRIP SPEEDED UP

As a compensation, however, the ride between Los Angeles and Palm Springs which used to take from four hours and 16 minutes on the fastest bus to four hours and 52 minutes on the slowest, now takes three hours and 52 minutes, the fastest, to four hours and 12 minutes, the slowest, a saving of 39 minutes on most runs.

The new schedule, effective on July 28, as announced by R. R. Dunlap, local Greyhound representative, is:

WESTBOUND:

Leave P. S.	Arrive L. A.
3:53 a. m.	7:45 a. m.
6:43 a. m.	10:35 a. m.
12:48 p. m.	4:35 p. m.
5:48 p. m.	9:50 p. m.

EASTBOUND

Leave L. A.	Arrive P. S.
11:00 a. m.	3:12 p. m.
12:30 p. m.	4:32 p. m.
4:00 p. m.	8:12 p. m.

VIA PASADENA

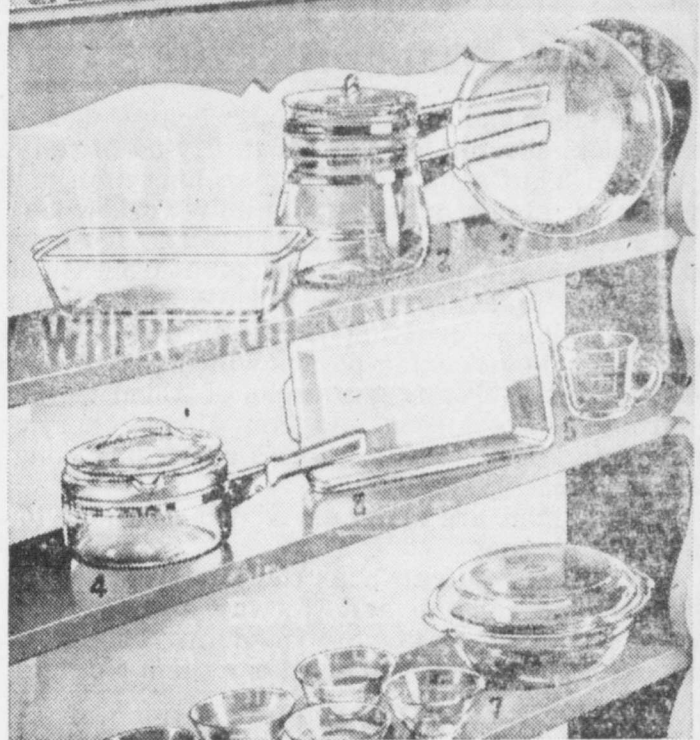

The bus leaving here at 5:48 p. m. and the one arriving here from Los Angeles at 4:32 p. m. run via Pasadena and San Bernardino, the others via Colton, Riverside, Ontario and Pomona.

Passengers are urged by Dunlap to note that all schedules have been changed except one—that is the bus leaving Los Angeles at 12:30 p. m. It still departs at that hour but reaches here at 4:32 p. m. instead of 4:55 p. m.

The call of the open road used to thrill us to our toes—now it merely starts us thinking about our buns.

**YET---
OUR RATES FOR ELECTRICITY
ARE THE LOWEST IN 21 YEARS**

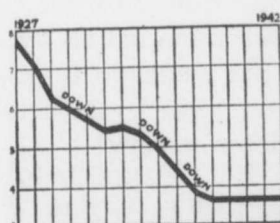

Old Mr. Hi Costof Living has been a nasty villain in raising the prices you have to pay for butter, cream, cheese, milk and eggs.

But Reddy Kilowatt has been a hero in reducing your electricity bills. While food prices have gone UP, UP, UP in recent years, your electric rates have come DOWN, DOWN, DOWN, and service to our customers has been enlarged and expanded along with rate reductions.

And as you use more electricity to make your business more profitable, your ranch work easier and your home life happier, you can expect these low electric rates to be even lower as time goes on.

The Battle Hymn of Freedom

There is something grimly beautiful, something soul-stirring in "The Battle Hymn of the Republic". That song, sung by marching men of the nation for almost a century, is now world-wide.

From the invasion-battered coast of Sicily to the steaming jungles of New Guinea; from Guadalcanal to Munda; from the storm-swept Aleutians to the violently erupting "summer front" in Russia; from the avenging planes which roar over the Ruhr and the blazing gun decks of Allied warships—from the seven seas, and from almost every corner of the earth, today, there's a swelling song of liberty.

Free men are singing. And men about to be free are singing.

Perhaps you can hear the enslaved people of France and Poland, and Norway and Holland, if you have an ear attuned to freedom. Though they dare not speak yet, you can hear them singing:

He hath loosed the fateful lightning of
His terrible swift sword;
His truth is marching on.

And as they rise against their oppressors when the hour of liberty nears, they will strike their blow for freedom, singing:

As He died to make men holy,
Let us die to make men free.

Hitler probably can't hear that song; nor can the treacherous Jap warlords. For the songs one hears above the roar of battle are songs of the soul. And one must have a soul to hear them. But free men will hear them!

This, perhaps, is only the beginning. There are long, cruel days and months of bitter fighting ahead. But as the President said when advised of the first landings, it is the beginning of the end. And free men everywhere are singing.

"Radar" in War and Peace

Some of the deadliest weapons of this most cruel and deadly war will contribute immeasurably to comfortable, happy living once the fighting is done. As in all wars developments have been made in the course of this one that would have required many years longer to perfect, without the impetus of necessity.

Foremost on the lists is "radar," the device making such spectacular history in detecting approaching enemy craft and determining distances to enemy forces. "Radar" may come to be as great a boon to humanity in the future as it is a scourge to our enemies now.

It will protect airliners from crashing into unseen mountains or other objects; it will guide ships at sea away from drifting icebergs. It will guard homes from thieves and "make the job of surveying a game". It will guide the blind like a guardian angel, warning dutifully of approaching objects.

The uses of "radar" will be manifold in the interest of peace and good living. It is just, it seems, that the great war weapons which have contributed their share to the necessary carnage of battle, should have their chance to redeem the men of good will who created them, by their even greater contributions to humanity in peace.

A Big Job for Young Folk

Still plagued with uncertainty as to just how they are going to get their 1943 crops harvested, farmers were asked by the War Food Administration this week to increase their productive acreage next year by 16 million acres—the greatest in American history!

With some help in getting the machinery and fertilizer they need and have been unable to secure in sufficient quantity, with price and transportation adjustments, with aid in securing and maintaining farm labor—agriculture can and will measure up to the unprecedented demand.

Meanwhile, the job at hand is to get the present crops harvested.

One hundred thousand volunteers are needed for the work between now and late fall, and a big percentage of those signing up to help will have to be teen-agers, State authorities announce. They will be paid the regular agricultural wage and their supervision, says the office of Victory Farm Volunteers, will be "everything a parent could ask for." At a Placer County girls' camp, one of the first to be established, there are seven councilors for 100 fruit packers.

OUR DEMOCRACY—by Mat

"CARE SAVES WEAR"

SHOES WERE RATIONED WHEN OUR COUNTRY WAS FOUNDED—NOT BY STAMPS BUT BY NECESSITY. IT TOOK 3 DAYS TO MAKE A SERVICEABLE BUT CLUMSY PAIR—A WEEK'S WAGES TO BUY THEM. PEOPLE WERE CONSIDERED LUCKY WHO HAD A PAIR A YEAR.

SHOES ARE BEING RATIONED TODAY SO THAT OUR ARMED FORCES CAN BE WELL SHOD. WE WILL HAVE ENOUGH TO GO AROUND... ITS UP TO US TO TAKE CARE OF SHOES—KEEP THEM IN REPAIR.

SHOES ARE WAR EQUIPMENT
FOR OUR MILLIONS OF MARCHING FEET;—
WE MUST USE LEATHER FRUGALLY.

"I Rise to Remark"

By CONGRESSMAN JOHN PHILLIPS

That right rear tire is getting pretty thin. The hot water bag leaks; stop in and get a new one on the way home. The doctor wants this prescription filled. Pass the sugar, please.

The day is filled with little requests, like these. We seldom think of the long chain which stretches from the request back to the origin of the ingredients which make up the compound, or the individual efforts which have produced the product.

The rubber may have been taken from the trees in the Belgian Congo or some other part of the world now under control of the enemy; then brought to America in ships which must now be used to haul supplies for fighting men; from there in railroad cars which are now needed for war purposes, to a factory where it is mixed with chemicals which in turn have felt the demands of total warfare. The nation turns frantically and somewhat confusedly to the planting of substitutes, and to the sudden decision on methods to be used. Guayule? Milkweed? Petroleum—Alcohol? To the scientist, it's a problem; to the nation it may be success or failure; to you, it's your tire or hot water bag.

The prescription requires drugs made from plants grown in and imported from Europe or the Orient. Quinine? The bases for compounds? The drug that will ease pain and save a dying soldier? We have allowed ourselves to be dependent on nations with which we are now at war. The State of California, under the auspices of the California Polytechnic School, of which Julian McPhee is president, has instituted a complete program for encouraging the growing of drug plants previously imported. The

director is Monroe C. Kidder, the best informed man on this subject in the United States. We struggle slowly towards recognition, in an area ideally suited for the solution of this problem. The Federal government leans toward the loaning of money to South American countries to grow these same drug plants, so that we may buy back from them the plants which often grow wild in California.

Sometimes the government does not follow this chain through all its links. Yet each link may be important. A few days ago it was announced in Washington from a source very close to the administration and notably accurate in previous announcements, that sugar acreage of the western states would be taken for the planting of more needed crops, particularly potatoes, beans and alfalfa. Your first reaction may be that you'll willingly go without sugar, to get more necessary foods for the soldiers or for the people. Then, too, there's the sugar stored in Cuba. We can bring that in.

Let's follow the chain. These crops require rotation if they are to produce in quantity, and if the ground is to be protected. What is the rotation for the sugar beet areas? 2 years beets; 3 years alfalfa, 1 year beans; 1 year potatoes. Did the school boy planners in Washington know that?

What becomes of the beet tops? They are fed to the cattle. 1 acre of beet tops is the equivalent of 2 tons of alfalfa. The alfalfa yield in the central farming states is 2 to 4 tons an acre. Here in the west it is higher. Where will we save to take the beet acreage?

If we ship feed for the cattle, grown in other areas, or if we ship sugar from Cuba; how will we carry it? In ships that are

Pittsburgh Pastor To Preach Sunday at Community Church

The Rev. Clarence Edward Macartney, youngest of the four Macartney preacher brothers, will preach the sermon at the Community church next Sunday morning at 10:30 o'clock.

He is at present spending a part of his vacation with Dr. J. R. Macartney, pastor of the Community church, at Forest Home in the mountains back of Redlands.

NOTED PASTOR
Rev. Clarence Macartney was formerly moderator of the Presbyterian church. He is at present pastor of the First Presbyterian church of Pittsburgh, Pa., one of the largest and most important on the American continent.

A special invitation has been issued to all Villagers to hear this noted divine Sunday.

QUARTET TO SING
Music will be by a mixed quartet, Mrs. Walter Illick, head of the church music program, announced. Members of the quartet are from local military posts.

Next Sunday will be Mrs. Esther Horton's last Sunday at the organ. The new organist has not yet been announced.

Del Tahquitz Gets Ready for Dancing Under New Permit

Preparation to hold nightly dances at the Del Tahquitz hotel were started this week under terms of a permit granted Mrs. Wilberta Lipps, proprietor, last Wednesday night by city council.

Remodelling of the proposed dance room to meet requirements of the city's dance regulations is underway and the room will be opened as soon as the work is completed.

New Publication Makes Appearance In Palm Springs

A new publication made its appearance in Palm Springs this week. The name is "Twenty One" and it is published by the 21st Ferrying Group, Air Transport Command.

Lt. Col. A. B. Cannon, Major A. E. Higgins, Lt. Mitchell Frankovich and Lt. E. L. Sinnott are on the paper's advisory staff.

Lt. James B. Maxwell is editorial director, Lt. Miles Soull, business manager and Sgt. George Goodale, editor.

The paper will appear weekly.

FOREIGN SERVICE

A busy young major of the Army Service Forces put aside his paperwork in Washington long enough to journey to a Canadian city, where he had been invited to address the Junior Chamber of Commerce. Shortly after his return associates noticed that he was wearing over his heart a new ribbon for foreign service — The New Yorker.

GOVERNOR'S PROCLAMATION

Governor Warren's proclamation, setting aside the week starting Sunday as Aircraft Warning Service week, follows:
"As Governor of the State of California, I am indeed grateful for the opportunity of proclaiming Aircraft Warning Service Week to the people of the State," the Governor said in his proclamation.

"Every citizen owes in some small part, a large debt of gratitude to the volunteers of the Aircraft Warning Service. They have served with unceasing vigilance on our Observation Posts and in our Filter and Information Centers. They have guarded this vital American frontier twenty-four hours a day.

ALWAYS ON GUARD

"Families have slept in safety; men and women have worked in our vital war industries without fear of sudden and unexpected death; trained military personnel and much needed equipment have been released to carry the war to the enemy's shores; many of our own pilots have been rescued from disaster; and all because these unsung heroes and heroines have been on constant watch, and on constant watch they will remain as sentries of freedom, until our war is won. Therefore, I do hereby proclaim the week of August first through August seventh, nineteen hundred forty-three, as being Aircraft Warning Service Week."

Burr Van Housen, district director for Riverside county, is in charge of county-wide observance of the week.

Joan—What's become of the Hikers Club?

CHRISTIAN SCIENCE CHURCHES

"Love" will be the subject of the Sunday Lesson Sermon in all branches of the Mother Church The First Church of Christ Scientist, in Boston. The Golden Text from Psalms reads: "O God thou art my God; early will I seek thee: Because thy lovingkindness is better than life, my lips shall praise thee."

As Jesus neared Jericho Luke reports that a blind man who "sat by the way side begging" cried saying, Jesus thou son of David, have mercy on me. And they which went before rebuked him, but he cried so much the more. Thou son of David, have mercy on me. And Jesus stood and commanded him to be brought unto him; and when he was come near, he asked him, Saying, What wilt thou that I shall do unto thee? And he said, Lord, that I may receive my sight. And Jesus said unto him, Receive thy sight: thy faith hath saved thee. And immediately he received his sight, and followed him, glorifying God.

On this subject Mary Baker Eddy writes in "Science and Health with Key to the Scriptures": "The great fact that God lovingly governs all never punishing aught but sin, is your standpoint from which to advance and destroy the human fear of sickness. 'The power of Christian Science and divine Love is omnipotent.'"

Laundry Hopes for Quicker Work Soon

The Banning Laundry, 155 East Amado road, announced this week that because of the labor situation finished work could not be done in less than three weeks, but that flat work could be done, rough dry, in 10 days.

They expected to have the labor situation remedied soon.

"Is your wife a club woman, Mike?"
"No sir. She usually throws dishes at me."

AMERICAN HEROES BY LEFF

Three Japs killed with one bullet was the score of Marine Pfc. Nicholas Sileo while defending a small village somewhere in the South Pacific. Sileo dropped the trio as they approached Indian file and then bagged two more before the swarming little men's rifle fire put him out of commission and he had to be hospitalized. Our boys are making the best use of the ammunition which help buy when you invest in War Bonds. Help pass them more of it.

Ten-Cent Reduction In County Tax Rate Expected This Year

After wrestling with the 1943-44 county budget from 10 a. m. until almost 5 o'clock yesterday afternoon, the county board of supervisors believed they had shaved 10 cents off last year's tax rate by cutting the original total—which had allowed for a six-cent reduction — by about \$40,000. They then gave it final approval. County Auditor Ray T. Hicks is expected to have the revised totals ready for publication shortly.

It was noted that at 10 o'clock hour set for hearing the budget, not a single taxpayer had appeared to discuss it, and when the time was extended to 11:30 there still were no spectators.

The rate, to be set by September 1, should be considerably below last year's figure of \$1.76 per \$100 of assessed value, California Taxpayers association officials have suggested. The rate in 1941-42 was \$2.22.

The matter of the gas tax fund was also debated for some time. Supervisor Robert Dillon moved and Floyd Gilmore seconded that that gas tax fund be divided by setting aside \$5000 for each supervisorial district and the remainder to be apportioned according to mileage.

Supervisor Hill offered an amendment to fix \$7500 as the sum provided for each district. The amendment lost. The original motion carried by a vote of three to two.

48-Hour Week In Effect in Southern Calif.

The mandatory war work week of 48 hours or more Thursday was ordered for all business and industrial establishments in five Southern California counties by the Area War Manpower Director.

Deadline for the change-over was set at August 22, giving employers a 30-day period beforehand in which to apply for exemptions. Requests for exemptions are to be sent in duplicate, to the Wartime Workweek Section of the War Manpower Commission, 1100 South Flower St., Los Angeles (15). The counties affected are: Los Angeles, Orange, Ventura, San Bernardino and Riverside.

Facts to be submitted to WMC with the exemption requests will be outlined at the nearest United States Employment Service office, H. R. Harnish, Area Manpower Director, said. All establishments, except those engaged principally in agriculture, come under the order, Harnish said.

Automatically exempted are employees under 16 years of age and employees who are unable to work a 48-hour week, workers in offices of the State or its political subdivisions, and workers whose hours are limited to less than 48 by law.

The order did not mention overtime, but generally time-and-one-half must be paid by firms in interstate commerce. Otherwise, overtime rates are determined by union agreements or between employers and their employees. Establishments already working 48 hours or more were asked to so notify the War Manpower Commission. Where the wartime work week would release employees for other employment, the United States Employment Service will aid in placing them, Harnish said. The 48-hour week was ordered recently by the Southern California War Manpower Committee, composed of labor and management representatives.

People From 60 Occupations Trained For Wartime Jobs

The wide range of occupations from which men and women now in war production jobs have been drawn is made clear by an analysis of the former activities of some of those who have been employed by Bethlehem Steel Company during the war emergency. The analysis, recently released, lists 60 occupations from which employees have gone to Bethlehem plants and shipyards. These occupations, many of which are totally unrelated to steel production or shipbuilding, include everything from actor to school teacher.

They show that a former automobile salesman is now a Bethlehem materials inspector, a delivery man is now a furnace loader, a former woman office clerk is now a ship draftsman, a former plumber is now a meter repairman, and a leather worker is now a machine operator. Among other employees are former college professors, architects, retail store clerks, writers, lawyers, waiters, gas station operators, mail carriers, druggists and representatives of a host of other occupations.

The Bethlehem plants and shipyards have absorbed men and women from such diverse occupations through an efficient set-up for on-the-job training courses whereby men and women earn good wages while they are learning a new job.

Bethlehem has tripled its number of employees in the past three and a half years, and adequate man-power is essential in order to attain the production goals it has set for this year.

Thousands of men and women from non-essential trades are joining Bethlehem war - work armies to assist in maintaining highest production and to provide replacement, including replacement for men who leave to go in to the armed forces.

The Bethlehem Steel Company has one of our nation's most widespread war production organizations. It is now building ships at the amazing rate of one a day. It is operating shipyards, steel plants, fabricating and manufacturing plants at or near Easton, Buffalo, New York, Wilmington, Bethlehem, Coatesville, Pottstown, Harrisburg, Lebanon, Johnstown, Williamsport, Pittsburgh, Baltimore, Chicago, Tulsa, Seattle, San Francisco, Alameda, Los Angeles and San Pedro.

Friend (visiting patient in hospital)—"Say, Fred, that's sure a swell-lookin' nurse you've got." Fred—"I hadn't noticed." Friend—"Great Scot! I had no idea you were that sick."

"Halt! Who goes there?"
"American."
"Advance and recite the second verse of The Star Spangled Banner."
"I don't know it."
"Proceed, American."

Everybody in Palm Springs Reads Desert Sun Classified Ads

You might as well Confess!

Almost everyone likes a mystery —almost everyone enjoys the thrilling excitement of tracking down a criminal with an ace detective. But some are a little ashamed to admit reading mysteries. Well—you needn't be. Maybe you didn't know that story column professors, bank presidents, great scientists, cap-

tains of industry, even the President of the United States all like their mysteries. In fact, millions of Americans are reading more mysteries today than ever before. Why? Mainly because these fast-paced, easy-reading stories are both relaxing and refreshing. It is for them—and for you—that we are publishing

Ellery Queen's Mystery Magazine

Edited by Ellery Queen, famous detective of the radio, the movies, and best-seller books, it is devoted exclusively to the best in detective crime short-story literature. And we mean literature. The fact that a story owes its plot to crime and detection need not prevent its being well written. Short detective fiction that is well written is not too readily available. But we are finding them—in books, in magazines, in the files of famous authors—and by arrangement with other publishers as well as with authors, we reprint in the approved Reader's Digest manner the best detective fiction to be procured.

Such masters as Dashiell, Hammett, Agatha Christie, Stuart Palmer, and Ellery Queen

are to be found in it. But stories are selected on their merits, not on authors' names. Tough and suave, casual and swift, comic and tragic, they are mingled with refreshing variety and stimulating change of pace. Rare gems, fit for the most critical, delightful to the most naive. You will find the new magazine well printed—sharp and clear kind to the eyes. You will find the size—same as The Reader's Digest—convenient to hold, to handle, to slip into your pocket. You will find the cover as pleasing to look at as a book jacket. And you will find the contents the most satisfying quarter's worth of good entertainment you have found in many a day. On sale at all good newsstands—25c a copy.

SPECIAL 10c OFFER TO READERS OF THE DESERT SUN OF PALM SPRINGS

Because we want you to know Ellery Queen's Mystery Magazine we will send you a copy of this anthology of the best de-

tective stories new and old—60,000 words of thrilling mysteries—for only 10c, the cost of postage and handling.

Fill in and mail the coupon below with 10c today.

ELLERY QUEEN'S MYSTERY MAGAZINE

570 Lexington Avenue, New York, N. Y.

21st FERRYING GROUP NEWS NOTES

Ferrying Division, Air Transport Command, Army Air Field,
Palm Springs, California

By Sgt. George Goodale

We have been knocking about as a Fourth Estater long enough to see many strange things happen. We have been told not to become excited over phenomena because it's usually as commonplace as ham and eggs.

So it came to pass that this week we found the blistering heat, bless its soul, a boon to mankind, especially those who are studying or plan to study journalism. Yes, whether you think so or not, this heat will make lessons easier to swallow for many a student.

HERE'S A NEW ONE

For years journalism teachers have been using that oldie about a man biting a dog. Such a happening, they have been teaching, is the definition of news, explaining that if a dog bites a man, that isn't news, it's just canine custom.

Well, our contribution also concerns a dog, but at least the action is different, so we plan to submit it to the Association-of-Journalism - Teachers - Who - Need - New-News-Ideas.

THAT'S NEWS

Yesterday we were ambling down Palm Canyon Drive at a speed that would have run a very poor second to a terrapin when we came upon a dog and a fire hydrant. We started to pass on by, and suddenly made a fast double-take. We saw, and added dialogue is unnecessary, the hydrant streaming water on the dog.

It must be a swell way for dogs to get cool, and we have already dispatched the incident via air mail to the journalism association.

TO TEACH DOGS

While we are on the subject of Man's Best Friend, as the poets scribble it, there is the item involving two of our soldiers, Sgt. O. Bias and Cpl. Albert E. Clouse. They will attend a long course at the War Dog Reception Center in the training of dogs for guard duty.

We assume they will return here when their tutelage has been completed and bring a few how-ows with them.

All of which might make Mike, the police dog that belongs to Alvin "Pappy" Famularo, the trumpeter, sort of jealous. Mike is now sweating out his sergeant's stripes, which we hear should be soon.

DOES SHE SALUTE?

Imagine the predicament that Pvt. Miriam Hoen, WAC, finds herself in. When she had her last date with her husband, she had to get a special permission from her commanding officer to see him, despite the fact that he was in town, she had a pass and her C. O. knew they were married.

Her husband's a lieutenant in the army. Wonder if she says "sir" when she kisses him?

MO'E WOE FO' MOE

All of us were left crouching behind an unwelcome eight-ball last week when the laundry failed to get back until very, very late.

But if you think that was tough, lend a bit of pity in the direction of Cpl. Moe Fierstein. Moe went to Long Beach after it, and finally got it.

One bundle was missing on the return here.

It was Moe's.

PROP WASH

It could be the heat or it could be something else, but . . . Sgt. William Fey spilled half the food

off his tray in the mess hall when he looked up and saw a pretty WAC serving him from behind the counter . . . Pvt. Mickey Slatery dined at the Bit of Sweden in Hollywood last week and when he went around the smorgasbord table his only comment was that he'd never seen that stuff in an army mess hall . . . Sgt. Joe Seidler was in a taxi cab the other night and he had a dollar bill and a piece of paper . . . he finished reading the paper and threw away the dollar . . . sorta like the professor who used to wind up the cat and throw out the clock . . . speaking of clocks, Cpl. Rocky Zaccaria, one of the resident managers of the NCO club, wants one that has an alarm . . . he needs it so he can boil ham accurately . . . we've seen hams boil in Hollywood without an alarm . . . 1st Sgt. Ernest L. Berry lost a decision to Snafu . . . too many priorities bumped him out of a ride . . .

A SUGGESTION

As long as the new hours for patronizing the PX are in effect, which are that you can't ankle in there during duty hours, we can't see why the place isn't opened at 7 in the morning.

The mess hall closes at that time and if you want additional coffee and cakes, or your day's supply of smokes, or what-have-you, the hour between 7 and 8 is the only opportunity afforded.

MEN, MAIDS AND STUFF

T-Sgt. Edward Tollison got a furlough and married his home town sweetheart, Miss June Hammons of Greenwood, Miss. He plans to bring her out here when the weather cools, although she's got a good job at home.

1st-Sgt. Helen Davis and Pfc. Maurice Prince are an item. She's a WAC. He's a WACK.

BY THE SEA

Lt. Paul Butler called transportation for a truck and ordered it sent to the gate by WAC headquarters.

"What do you mean, by WAC headquarters?" the voice at Transportation inquired.

"You know, down here at the west gate," said the lieutenant.

"Where are you, anyhow?" was the reply.

"Palm Springs, you dope, where do you suppose," said Butler.

"Oh, that's different. You've got Long Beach on the phone," said the other end.

NEW VERSION

Lt. Walter Farris, the chaplain, was pitching a ball game the other night and he had the bases full and two batters out. The next batter poled a long home run.

Might be a new version of the song "Comin' In On A Wing and A Prayer."

A TRIBUTE

The entire sports world was stunned last week by the death of Capt. Charles Paddock, once the "world's fastest human."

Lt. James R. (Bob) Maxwell, the public relations officer and a former Olympic hurdling champion, was a close friend of Charles'.

The Los Angeles Herald-Express asked Lt. Maxwell to write a piece about Paddock. We want to reprint it in part.

"I'm stunned by the news of Charles Paddock's death.

"I've travelled with him on two continents, competed with him on the cinder track and worked with him with the roar of the presses ringing in our ears. For more than 20 years he was my friend.

"Charles Paddock's life was lived in a whirlwind. He loved excitement. He wanted things to move and things to happen. And if they didn't he made them do just that.

"He dropped a promising newspaper career to become a captain in the Marine Corps.

"No one I've ever known always, every moment, got so much out of life. And I know he went the way he'd want to go—"

Pvt. P. C. Steffensen, who was recently transferred to the army base at Fresno, was a visitor in the Village last week for a few days.

Visitor (in defense plant)—"Look at that youngster, the one with the cropped hair, the cigarette and the trousers on, It's hard to tell whether it's a boy or girl."

War Worker—"She's a girl and she's my daughter."

War Worker—"I'm not her father, I'm her mother."

10 Points a Pound For Butter After Sunday, August 1

Important changes will affect the ration books of Villagers commencing Sunday, August 1, according to word from Washington this week.

Most important to many is the two-point boost in butter. Heretofore eight points to the pound, butter will be 10 points per pound commencing Sunday.

QUESTION RAISED

Immediately the question was raised by OPA officials in Southern California who asked Washington for a ruling on half points. It was pointed out that butter is now limited in many sections to a quarter of a pound to a customer. This now calls for two points at eight points to the pound. What to do after Sunday when butter is 10 points a pound was the question.

Unless Washington rules on half points, customers will lose two points per pound as retailers will be able to take three points for every quarter pound.

An answer to the problem is expected at southland OPA offices before Sunday.

FEW CHANGES

Meat points were little changed for August. There will be 10 per cent more beef available for the civilian public in August but with the demand still running high, there will be no cut in the high point values for beef.

Point values on processed foods, blue stamp values, were practically unchanged for August. Beans will go up as will tomato juice next Sunday but fruit juices will drop.

Validity period of blue stamps R, S and T, in effect next week, has been extended to September 20.

Child Training Expert: "If your children become unmanageable, quickly switch their attention."

Puzzled Parent: "Their what?"

Bill — Love's certainly grand. My feet are on the ground, but my head's in the clouds.

Tom — You'd better pull yourself together.

Legal Notices

IN THE JUSTICE'S COURT OF RIVERSIDE TOWNSHIP, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA
SUMMONS
Action No. 4278

JAMES F. McDILL, as Deputy, Division of Labor Statistics and Law Enforcement, Department of Industrial Relations of California, Plaintiff vs. LOIS KELLOGG, Defendant.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETING TO: Lois Kellogg, Defendant.

The above named Plaintiff, having brought action against you in the Justice Court of Riverside Township, County of Riverside, State of California, by filing a complaint (copy of which is required to be served herewith):

YOU ARE HEREBY DIRECTED to appear and answer (in writing) the said complaint within ten days (exclusive of the day of service) after the service on you of this summons, if served within the County of Riverside; and within thirty days if served elsewhere. And you are hereby notified that unless you so appear and answer (in writing) said complaint as above required, said Plaintiff will take judgment for any money or damages demanded in the complaint, as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Given under my hand and seal this 19th day of May, 1943.

R. A. MOORE,
Justice of the Peace of Riverside Township, County of Riverside, State of California
Attest, Virginia Vagliaro
Clerk
Publish June 18, 25; July 2, 9, 16, 23, 30; August 6, 13, 20.

NOTICE INVITING OFFERS FOR SALE OF REAL PROPERTY TO SCHOOL DISTRICT

WHEREAS, the Board of Trustees of the Palm Springs Union High School District proposes to purchase for school purposes one parcel of land containing ten (10) acres, more or less, situated in juxtaposition to the present high school property, which is described as the South three-quarters (¾) of Lot 27, in Section 13, Township 4 South, Range 4 East, S. B. 3 & 4, as shown by Map of Palm Valley Colony Lands, recorded in Book 14 of Maps, at page 652 thereof, records of San Diego County, California;

NOW, THEREFORE, the owners of real property situated in juxtaposition to the said high school lands are invited to make sealed offers for the sale of one parcel of land, containing ten (10) acres, more or less, to the Palm Springs Union High School District. Each offer shall contain a legal description of the lands offered for sale, the acreage contained therein, and the price for which said lands are offered. All expenses of sale, including escrow charges, shall be borne by the seller who shall also furnish a policy of title insurance in the name of the High School District.

NOTICE IS HEREBY GIVEN that, on the 4th day of August, 1943, at twelve o'clock noon, the said Board of Trustees will meet at Palm Springs High School, in the City of Palm Springs, County of Riverside, State of California, and will at that time consider offers for the sale of one parcel of land containing ten (10) acres, more or less, to the Palm Springs Union High School District, for school purposes.

The Board of Trustees reserves the right to reject any and all bids.

BY ORDER OF:
BOARD OF TRUSTEES OF PALM SPRINGS UNION HIGH SCHOOL DISTRICT

Schedule For New Red, Blue Ration Stamps Given Out

Red stamps in Ration Book No. 2, good in August, were announced by OPA headquarters this week as follows:

T, which became valid Sunday, is good until August 31.

U, August 1 to August 31.

V, August 8 to August 31.

W, August 15 to August 31.

Validation of stamps on successive Sundays follows the same procedure used for the past few months.

Red stamps P, Q, R and S are no good after tomorrow.

Blue stamps N, P, and Q are good until August 7.

Blue stamps R, S and T become effective next Sunday and are good until September 20.

"So your husband's in the army now, Mrs. Brown?"

"Yes, they've made him a gunner, an' that's what he's been ever since I married him!"

"Always been a gunner?"

"Yes, ever since I knew him he's been 'gunner do this' and 'gunner do that', but he never did anything worth while!"

Rationing Rules

Your Coupon Schedule

Sugar — Stamp No. 13 good for five pounds per person until August 15.

Shoes — Stamp No. 18 in War Book 1 good for one pair of shoes until October 31.

"W" effective August 15 to 31.

Tire Inspections — A-book cars next deadline September 30.

B-book cars, next deadline, Oct. 30.

C-book cars, next deadline, August 31.

New Air Base Post Chapel Is Opened Before Big Throng

Lieut. James C. Whittaker, copilot on the ill-fated Eddie Rick-enbacker Pacific flight, was the principal speaker at the dedication of the new 21st Frerying Group's new post chapel Sunday night. He described the 21-day ordeal on life rafts after the plane crashed and attributed their final rescue to the fact that God was with them and directed their salvation.

The chapel was full for the dedicatory service.

Lieut. Col. Andrew B. Cannon, commanding officer at the post, was ill and was unable to make the dedicatory address.

With the opening of the new chapel, services which have been held in the mess hall, will be discontinued.

Lt. Walter Farris, post chaplain, and C. L. Hughes, post Red Cross director, will have their offices in the new building.

Services will be held by Chaplain Farris in the new chapel next Sunday morning at 9 o'clock and Sunday evening at 7:30. All post personnel as well as residents of Palm Springs are invited to these services.

"My friend," said the stranger, "have you sufficient confidence in me to lend me a ten-spot?"
"Oh, yes, I have the confidence. All I lack is the ten spot."

Pay Telephone Bills before the 30th and receive your discount.

It's Pretty Warm But Time to Think Of Christmas Mail

It's still pretty warm to be thinking about Christmas but Postmaster R. M. Gorham had his mind on the Yuletide season this week.

Christmas cards and parcels for army personnel overseas must be mailed between Sept. 15 and Oct. 15, he said, upon receipt of word to that effect from Washington.

SAME RESTRICTIONS

Same restrictions as applied last year are in force this year, said Postmaster Gorham. To conserve space parcels must not exceed five pounds in weight, 15 inches in length or 36 inches in length and girth combined.

Not more than one parcel per week will be accepted to the same addressee from the same person or concern. No overseas matter will be accepted as insured or C. O. D. mail. Postal money orders were recommended to transmit gifts of money to members of the armed forces outside of the limits of continental United States.

PACK 'EM CAREFULLY

Owing to the great distances to be traveled, Postmaster Gorham urged good, substantial containers. Each container is subject to censorship.

Barred goods are intoxicants, matches, lighter fluids, inflammable material of any kind, poisons or compositions which might injure or endanger the mails.

But, no matter if it is NOT Christmas weather, it is time to think about Christmas mailing.

People's Increasing Interest Healthy Sign

Addressing a gathering at Riverside this week, Congressman John Phillips said that the California legislature is more efficient in its conduct and more careful in passing laws than Congress.

He said that the healthiest sign he had seen on his travels was the increased interest the people of the nation are taking in national affairs these days.

It augurs well for the postwar period, he declared.

July 28	112	79

On This Side . . .

(Continued from Page One)
just a yellow blob by the time you get it paid for."

QUOTED — And what's your opinion on the length of the war? Chiang Kai-shek said in a speech recently: "Henceforth the aggressor has no alternative but to await his doom. The time limit on his utter defeat cannot exceed two years." . . . The navy department recently put out an estimate of six years . . . Mother Goose was a pretty fair prophet herself. Remember "Humpty Dumpty had a great fall?" Well, how about Benito? He always reminded me of an egg . . . How fast are some of the new U. S. planes? Says the pilot of a new A-36 fighter-bomber: "We don't dive as fast as most people think but actually we have gone so fast that we have caught up with our own bullets."

VINGT ET UN—Down at the air base they're all talking about "Twenty One." But that doesn't mean they're all striving for an ace and a face card and have given up trying to fill a straight with a two-card draw or trying to get those spots to come up so they add seven or eleven. The "Twenty One" they mean is the new post paper. It has an imposing advisory board but the leg work is done by that clever writer, Sgt. George Goodale who sits down by the old mill (he wishes he had a stream) and barrels it out. It's a neat sheet . . . The argument over who possesses the most "oomph" in Hollywood has been settled. Other press agents may say what they want about their stars but Ann Sheridan's publicity hound need only point to the fact that when his client entered a studio this week, the automatic sprinklers let go and flooded the place.

ON THE LIGHTER SIDE — General Washington weighed 209 pounds, General Lincoln, also of the War of the Revolution, weighed 224, General Knox weighed in for battle at 280. They train 'em better now. Generals Marshall, Eisenhower and Sumervell weigh about 170, Gen. MacArthur, 180. At that, they carry as much weight as the generals 150 years ago. Anyway, I can mention this without blushing. When I used to live to eat, I weighed 230. Now, 175. And my favorite meal is still apple pie with ice cream on it when—and if—I can get it . . . If they don't straighten out this food muddle soon, we'll all have that sylph-like form, come 1944 . . . If the OPA had raised the value of butter to 12 points it wouldn't have been so bad. Most people wouldn't mind paying out three points for a quarter of a pound of butter but all of them will hate to lose that half point under the new ten-point schedule.

ARGUMENT — Some statistician, in an idle moment, figured out that the average man covered 20 square miles with a razor in a life-time. That immediately started an argument. It's the silly summer season, you know. . . . It has been figured that the average man's face constitutes about one square foot. At one shave a day, over twice, that would amount to 730 square feet a year. A man would have to start shaving while still in the cradle and live to make Methuselah (see note) appear to have died young, to cover 20 square miles at that rate (Note — I hope Methuselah is the right way to spell the gentleman's name. No one in the office knew but the make-up man said "Just spell it any old way. Nine-tenths of your readers won't know the difference").

WHAT OF IT?—I see where I'm in step with most of the nation's populace. A poll conducted by a syndicate writer discloses that the majority like to say "rayshun" instead of "rashun" . . . Now, if they'd agree on Deepeo instead of daypo all would be well . . . "The old question of who wears the pants in the family," said a man at the post office yesterday, "is obsolete. The correct query these days is who's wearing whose?" . . . By the way, what has become of those new pennies? Maybe people are hoarding them. I know a woman who grabs them as soon as any member of the family gets one and stows it away. She has about 400 of them stored away in fruit pars now. Claims that if the new pennies are kept away from other coins they stay bright and shiny.

HOT WEATHER HINT — If you want to keep cool in the summer, don't take cold showers, says a medical friend. They feel fine for a few moments but, oh, that reaction! Take a lukewarm shower and you'll be cooler. In addition — you've probably noticed those signs on paper towel containers—rub, don't blot; well, you do just the opposite. Blot, don't rub. And you'll enjoy life—That won't be two dollars . . . At the police station they have it doped out that Burt Sanard, oldest son of Chief and Mrs. Lyle J. Sanard, is now a sergeant. The chief is gone and they got the information from letters from the son,

IT IS FUNNY—"It Ain't Hay" but it IS funny—that's Bud Abbott and Lou Costello shown above in their latest picture "It Ain't Hay" featuring Grace McDonald, Cecil Kellaway and Eugene Pallette at the Plaza theater August 5 to 7.

Bert Misner to Be Absent From Ground Observation Post Here Next Week First Time in 17 Months—He's Going Fishing

The longest, unbroken record of faithfulness and dependability at the Palm Springs Observation post came to an end last night. Next Thursday evening, for the first time in one year and five months, Bert Misner, operator of Bert's barber shop, 138 West Andreas road, won't be looking at the skies, watching for airplanes.

He'll be at Big Bear Lake, contemplating the day's catch.

Misner is going to take a vacation. He's waiting now to hear from a man to take his place so that his patron's locks can be shorn as usual, their faces scraped as always. But if the barber does not show up, he is going to padlock the door and close up for two weeks. Then he and Mrs. Misner are going to Big Bear where he'll put in two weeks fishing and just loafing.

Misner's record at the local air post is the best in point of steadfast service and regularity. He has not missed his three-hour trick on a Thursday night since a year ago last February.

During his absence in the mountain country, Ray Sorum, director of public works, and John Connell, councilman, will bat for him at the observation post.

"And if that barber comes to relieve me, I just may stay away for four weeks," he said. "I've got some relatives around Beverly Hills I'd like to visit when I catch enough fish at Big Bear."

who is in North Africa, to his parents. No, they haven't been reading the chief's mail. But on the outside of the envelopes, the inscription early this week was Cpl. Burt Sanard, yesterday, Sgt. Burt Sanard. That just couldn't get by the sleuthing instincts of the force. Elementary, they say.

AND LASTLY — It isn't the heat that bothers me — it's the humanity.

"Yes, I early began to follow the adage—see a pin and pick it up."

"And now?"

"Now I am pin boy in a bowling alley."

Rex Stuart Draws Throngs to Barney's With His Music

Entertaining nightly at Barney's cafe now is Rex Stuart, well known cowboy composer and pianist and his songs are making the cafe one of the Village's most popular spots. Stuart expects to be here all summer.

He has appeared in many Western pictures and is at present cultivating a special growth of beard for a new picture.

At Barney's he is now specializing on Western songs, many of them his own, and on old time numbers that all of the service men, who pack the place know, and join in community singing. He has composed many western songs, the latest of which is "Way Out West."

Palm Springs Group Back From Mountains

A group of Palm Springs youths, members of the Community church, returned to the Village early this week after a week's stay at Forest Home where they took part in the Forest Home Summer Bible conferences and enjoyed the mountain outing. Howard Ames brought the group back in his truck.

Mrs. George Quigley accompanied the group as chaperone and advisor.

Synthetic tires will bring relief from the rubber shortage but they promise no relief from drivers with synthetic brains.

Two From Village Attend Mutual Aid Session in Perris

Fire Chief Bill Leonesio and Fireman Orville W. Bigham attended a meeting of fire chiefs, county defense and forestry heads at Perris Tuesday night at which mutual aid plans between all departments in Riverside county, forestry officials, state and national, and army camps, were discussed.

Deputy Sheriff Rod. L. Abbott, county civilian protection officer, called the meeting.

State Forest Ranger John Tromblin of Perris was elected fire coordinator for the county in direct charge of all fire apparatus in the county in event of an emergency.

Mutual aid between all departments in the county was arranged not only for wartime emergencies but in the event of other disasters such as storms or earthquakes.
